Dear US Primary Exporter of Hazardous Waste:

Our records indicate that during 2017 you had a valid consent(s) for the export of hazardous waste. **This letter is a reminder that your 2017 Annual Report summarizing your exports of hazardous waste during calendar year 2017 was due on March 1, 2018.** *Even if you did not export during 2017, you must submit an Annual Report referring to your consents for export of hazardous waste, noting that you had zero exports for each consent.*

The regulatory requirements for Annual Reports are listed at 40 CFR § 262.83(g) Annual Reports not meeting these requirements, as applicable, will be returned as deficient. **Failure to file a timely and accurate annual report of Hazardous Waste exports can result in a penalty of up to \$32,500 per day.** You may access these regulations by clicking on <https://www.ecfr.gov/cgi-bin/text-idx?SID=2bb9edbec9f3d88caef586d3f21e24f4&mc=true&node=se40.28.262183&rgn=div8>

U.S. EPA would like to encourage you to utilize the Annual Report function in EPA's Waste Import Export Tracking System (WIETS) to create and submit your 2017 Annual Report. While use of the function is not yet mandatory, using it will greatly assist you in submitting your 2017 Annual Report. The WIETS Annual Report function will build a draft report based on all the Acknowledgement of Consent (AOC) letters issued to you that authorize shipments over part or all of 2017. The annual report will use the data in the system for those consents to list all waste streams by foreign receiving facility. You will then enter the number of shipments and total quantity export for each listed waste stream to complete your report, sign it and then submit it in the system. For those exporters working with a notice preparer, that same notice preparer can use the Annual Report function to prepare the Annual Report and forward it to you for review and signature just as the preparer did for the export notice. Lastly, as noted in the recordkeeping regulations in 40 CFR 262.83(i)(2), exporters may satisfy the recordkeeping requirements by retaining electronically submitted documents in WIETS.

Should you still choose to submit a paper export annual report, you may use the attached optional form for your convenience. Please both email me a copy of the completed form and follow-up by mailing the originally signed and dated form to my attention at the following address:

Eva Kreisler, Office of Land and Emergency Management, Office of Resource Conservation and Recovery, International Branch (2255A), Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Washington, DC 20460.

Please note that this is the last year where submitting paper annual reports will be allowed. Use of the WIETS Annual Report function will be mandatory starting in calendar year 2019 for your 2018

Annual Report submittal.
